January 2008

We Need You To Be A Part of The Chamber Team,

The Chamber works diligently to promote the Carrollton area both for its business economy and as a tourism destination. We cannot do this without the strength of our Chamber memberships behind us.

You've built your business in this area because of the vitality and strength of Carroll County and its surrounding area to support your business. This was a wise choice, but maintaining that strength and vitality takes the business community working together as a whole. That is where the Chamber can help. Together with membership strength and governmental relationships, a Chamber works to promote, support and represent the business community on legislative, local, state and any other issue that may arise.

No other entity works full time to promote the health and viability of a community like a Chamber. Your membership is important to this effort. The Chamber also works to create membership-networking opportunities to visit with other members and to gain helpful knowledge and support of one another, along with educational opportunities as well. We need all of us working together to make Carrollton & Carroll County succeed. Come be a part of the Chamber Team, together we all win!

Together we can make a difference.

Sincerely,

Sharon Metz
Executive Director
Carrollton Area Chamber of Commerce
